Objective

Full-Stack Software Developer with experience building scalable web applications using **React, JavaScript, Node.js**, and **REST APIs**. Built and deployed full-stack projects with **authentication, payment integration**, and cloud platforms (AWS and Azure). Also experienced in working with customers in a **banking environment**, which helped me understand how to build applications that are user-friendly and practical. Enjoy working in team environments, collaborating with others, and continuously learning new technologies.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, Python, Java, SQL, Bash, HTML5, CSS3
- **Front-End:** React, Next.js, Angular, Vue.js, Tailwind CSS, Bootstrap, Responsive Design, Figma
- **Back-End:** Node.js, Express.js, RESTful APIs, GraphQL, Authentication (JWT, OAuth2), .NET
- **Databases:** MongoDB, MySQL, PostgreSQL, Azure SQL, Oracle, SQLite
- **Cloud & DevOps:** Azure, AWS, Docker, Kubernetes, Jenkins, CI/CD Pipelines, Render, Heroku
- **Tools & Platforms:** Git (GitHub/GitLab), Postman, Jira, Power BI, Visual Studio, VS Code
- **Development Practices:** Agile/Scrum, SDLC, OOP, Microservices, API Documentation, Testing & Debugging

Soft Skills

- **Critical Thinking & Problem-Solving:** Ability to break down complex logic and troubleshoot production issues efficiently.
- **Communication:** Strong verbal and written skills for technical documentation and translating requirements for non-technical stakeholders.
- **Collaboration:** Experienced in Agile/Scrum workflows, pair programming, and participating in constructive code reviews.
- **Adaptability:** Fast learner with a passion for mastering new technologies and frameworks

Work Experiences

Web Developer & Databases | George Brown College, Toronto, ON

2024 – 2025

- Provided comprehensive technical instruction in **Python, SQL, and JavaScript** to 20+ students, emphasizing full-stack integration and OOP principles.
- Improved project outcomes by **15%** by guiding students in **debugging, testing, and optimizing performance**
- Guided capstone teams in deploying scalable applications to **Azure and AWS, Render, and Vercel** fostering readiness for modern DevOps environments.

Software Developer | Azarpad Niroo

2023-2024

- **Engineered a scalable web application** using **React (Vite)**, **Node.js**, and **MongoDB** to manage client and appointment data, improving user experience and system performance.
- **Collaborated directly with stakeholders** to translate business requirements into technical features, helping streamline UI updates across multiple application modules.
- **Tested APIs using Postman**, manually validated core user workflows, and implemented secure authentication using **JWT** and **bcrypt** to protect user data.

Software Developer (part-time) | Fara Tavan

2021-2023

- **Built and optimized 10+ responsive UI components** using JavaScript and HTML/CSS, improving user experience and interface usability.
- **Maintained RESTful APIs** using Node.js and MongoDB, focusing on data consistency and efficient server-side logic.
- **Resolved 15+ technical issues** and fixed bugs, improving application stability.

Bank Teller | ScotiaBank

2022-2023

- Assisted 20+ clients with daily banking transactions while ensuring accuracy in transactions.
- Followed security procedures to protect clients' sensitive data.
- Built positive relationships with clients through clear communication and effective problem solution.

Education & Certifications

Advanced Diploma - Computer Programming and Analysis at George Brown College

2025

Master's Degree – Education

Using Python 1: Organize and Analyze Data - University of Toronto

Python for Data Science, AI & Development

The Complete Oracle SQL Certification Course

Microsoft Azure Fundamentals (AZ – 900) Cert Prep by Microsoft Press.
